

# ESASTAP 2020

## Strengthening Technology, Research and Innovation Cooperation between Europe and South Africa 2020

### Kurzbeschreibung des Projekts:

The STI cooperation between the EU and South Africa as originally framed by the South Africa-EU Scientific and Technological Cooperation Agreement and as constantly steered by the JSTCC requires a support mechanism which can translate and facilitate policy decisions, and provide intelligence and information services to various actors and stakeholders. In previous years the ESASTAP project series (ESASTAP, ESASTAP-2 and ESASTAP+) has successfully provided this support to the bilateral dialogue. The proposed ESASTAP 2020 project is a coordination and support action that aims at advancing further the EU-SA bilateral STI cooperation, building on the work and results of three preceding actions and responding to the needs and recommendations at the policy dialogue level, in particular to the mandate of the JSTCC and to the adopted Roadmap for cooperation between South Africa and the European Union. The project aims to provide efficient services on three levels (priority areas):

- a. R&I Cooperation in areas of common interests (Horizon 2020 and others).
- b. Policy Dialogue between EU and SA and by increasing the knowledge of the EU's external environment.
- c. Provision of a Cooperation platform and tools to alleviate obstacles.

These priority areas translate into four major objectives through which the project is aiming to address the specific challenges of the call.

### Deutsche Partner im Projekt:

Deutsches Zentrum für Luft- und Raumfahrt, Projektträger, Bonn  
Internationales Büro  
Stefan Haffner  
www.internationales-buero.de

### Weitere Partner:

DEPARTMENT OF SCIENCE AND TECHNOLOGY, SA  
ACADEMY OF SCIENCE OF SOUTH AFRICA, SA  
AGENZIA PER LA PROMOZIONE DELLA RICERCA EUROPEA, IT  
INSTITUT DE RECHERCHE POUR LE DEVELOPPEMENT, FR  
NATIONAL RESEARCH FOUNDATION, SA  
RESEARCH COUNCIL OF NORWAY, NO  
TECHNOLOGY INNOVATION AGENCY, SA  
ZENTRUM FÜR SOZIALE INNOVATION GMBH, AT

### Koordination:

Praxi Network - Technology Transfer  
and Innovation Support in Action  
Constantine Vaitsas  
Heraklion, Griechenland
